- Online access
- Printed reports
Packaging
Customized solutions | Kitting & Assembly | Display Building | Bundling | Shrink Wrap

The first exposure customers have to your brand is packaging. The accuracy and quality work we guarantee when repacking, shrink wrapping, or assembling and filing POP displays is essential to your brand integrity. As a reimagined 3PL we offer customized solutions, from design to distribution, created to support your brand. Quality assurance programs are tailored to your product by your dedicated CSRs and planners who manage a flexible workforce to insure your product exceeds all expectations.

- Primary packaging
- Secondary packaging
- Kitting & assembly
- Display building
- Bundling
- Case forming
- Fulfillment house
- Pick & Pack
- Pallet wraps
- Multipacks
- Shrink wrap
- Just-in-time packaging
- Temperature controlled
- Isolated production rooms
Getting your goods to market can be the most complicated process in the supply chain. We offer flexibility to crossdock product from one mode of transportation to another or take in bulk goods and redistribute to multiple locations. Together we can develop a reimagined transportation system that is right for you.

Managers of small and large paving jobs rely on We Pack Transload to store and deliver quality LRA products. The capacity to stockpile and truck materials to multiple locations helps insure the timely completion of your projects. LRA produces a superior road paving material with respect to tire skid resistance and ease of use. Normal Hot-Mix materials only have a shelf life of a few days, LRA, on the other hand can be stored for as long as one year. In addition, LRA has a higher yield per cubic yard (CY).

LRA TX DOT Item 330 Type I & Type II
- Ready To Use
- Asphalt Stabilized Base
- Level Up, Paving, Patching & Covering
- Flushed or Bleeding Surfaces
- Computer Controlled Mixing
- Rut & Skid Resistant
- Machine or Blade Application
- Open to traffic immediately after rolling
- Great for dust control
- Stockpile up to one year

Also available are type AA, A & B coarse base for projects requiring build up, and LRA Fines for dust control in heavy vehicle traffic areas and work sites where a safe, clean environment is important.

Hydraulic Fracturing Sand
When managing your oil or natural gas extraction, the last thing you need to worry about is your sand. Trust We Pack Transload to deliver quality sand for your job, to the right location, on time. With our direct connections to the railroad system we are capable of efficiently supplying your site with the quantity of sand needed to get your job done.

- Direct connection to the railroad
- Covered hopper railcars
- Environmentally protected storage facility
